## Feedback form.

Date - 26-2-21

On 26<sup>th</sup> Feb, we had a debate on the topic - "Benefits and harmful effects of poisoning", for that we made two groups, one was in the support of the motion and one was against.

We got to learn a lot of things like poison have its own pros and cons. It depends on human how he uses the poison, it can be either beneficial or harmful to mankind.

Poisons can be safely used and be beneficial to society when used appropriately, eg. use of pesticides.

Poisons can be harmful also, and used as homicidal, suicidal, abortifacients etc.

We got to know new facts about poisons and others' opinion about poisons. It made us collect information about poison, which is very helpful for us, and everyone was actively participated in the debate.

Date:- 26/02/2021
