

SMBT Ayurved College & Post Graduate Center

Dhamangaon, Tal. Igatpuri Dist Nashik 422403

Date:- 3 /08/2018

**Basic Workshop in Research Methodology
Report 30th July to 01st Aug 2018.**

A Research Methodology Workshop was conducted at SMBT Ayurved College & Post Graduate Center, Dhamangaon, Nashik from 30th July to 01st Aug 2018. This workshop was organized by the P.G.Department.

This workshop was started with lamp lightening and inauguration Ceremony by Hon. Director Dr.Vasant Pawar, Hon Principal Dr.Pradeep Bhabad SMBT Ayurved College & Post Graduate Center; Hon. Dean Dr. Vasishtha SMBT Medical College; Hon. Dean SMBT Dental College Dr. Kiran Jagtap; P.G. Coordinator Mrs. Dr. Shilpa Badhe.

Following faculty addressed key issues in Research Methodology:

1. Dr. Aashish Banginwar :- Professor & H.O.D Dept of Community Medicines SMBT Medical college, Dhamangaon. Nashik.

2. Dr. Amit Gujrathi :-Associate Professor, Dept of Community Medicines SMBT Medical college, Dhamangaon. Nashik.

3. Dr. Vaibhav Phartale: Associate Professor -Department of Kayachikitsa , SSAM & H Nashik

4. Dr. Kiran Shinde :- Assistant Professor- Department of Kaumarbhritya , SSAM & H Nashik

5. Dr. Rutuja Pundkar :- Associate Professor - Department of Community Medicines, SMBT Medical College, Nashik

6. Dr. Sanjay Khedekar :- Associate Professor - Department of Rasashastra & Bhaijya kalpana , SSAM& H Nashik

7. Dr. Pawar Parashuram :- Professor - Department of Dravyaguna SSAM&H,

Nashik.

8. Dr. Manasi Padhyegujar :- Professor - Department of Community Medicines SMBT Medical College, Nashik

9. Dr. Triveni Kale :- Professor & HOD Periodontics, KBH Dental College, Nashik

10. Dr. Shekhar Padhyegujar :- Professor - Department of Community Medicines SMBT Medical College, Nashik

11. Dr. Rakesh Patil :- Associate Professor - Department of Community Medicines NDMVP Medical College, Nashik

SMBT SEVABHAVI TRUST'S

SMBT AYURVED COLLEGE AND HOSPITAL

(An ISO 9001:2015 Certified Institute)

Approved by Central Council of Indian Medicine, New Delhi & Ministry of AYUSH (Govt. of India)
Affiliated to Maharashtra University of Health Science, Nashik

Details:

1. All 50 participants actively participated in this workshop.
2. We fixed morning entry signature time between 09.00 a.m. to 09.30 a.m. sharp and evening session signature as per schedule.
3. Total 18 hrs scheduled was also followed.

All the sessions as per schedule were successfully conducted with mentioned time bound schedule as per approved by IMETTT.

This workshop was a grand success in terms of knowledge gained by the participants. It was assessed by Pre and Post test questionnaires. Workshop was concluded with thanks giving Ceremony.

This workshop was conducted successfully under Guidance of Principal Dr. Pradeep Bhabad Sir, P.G. Coordinator Dr. Shilpa Badhe, Workshop Coordinator Dr. Gunjal Ankush, Dr. Chaudhari Varsharani, Dr. Prashant Patil, Dr. Pallavi Nikam

**Basic Workshop in Research Methodology
Programme Schedule**

Venue & Organizer: **SMBT Ayurved College and Hospital,**
Nandi Hills, Dhamangaon, Tal. Igatpuri, Dist. Nashik-422403.

Number of participants: 50

DAY ONE - Date: 30.07.2018, Monday

S. N	Topic	Method	Time (Min.)	Speaker	Time
1	Registration, Breakfast and Pre -Test				09:00 am to 10:00 am
2	L-1: Introduction to Research Methodology	Lecture	45	Dr. Aashish Bangiwar	10:00 am to 10:45 am
3	L-2 : Study Designs-1: Descriptive studies	Lecture	45	Dr. Amit Gujarathi	10:45 am to 11:30 am
4	Tea		15		11:30 am to 11:45 am
5	L-3 : Study designs-2: Case Control and Cohort Studies	Lecture	45	Dr. Manasi Padhye gujar	11:45 am to 12:30 pm
6	L-4 : Study Designs-3: Experimental studies	Lecture	45	Dr. Vaibhav Phartale	12:30 pm to 01:15 pm
7	Lunch		30		01:15 pm to 01:45 pm
8	Group Activity-1: Participants will be divided into 4 -5 groups. <ul style="list-style-type: none"> Each group will discuss among itself and come out with at-least 2 research questions and related hypothesis Indicate why the topic was selected by the group over other topic Indicate the type of study with reasons thereof Indicate dependent and independent variables included in the study (Tea may be served during group activity)	Group Activity	90	Dr. Kiran Shinde Dr. Vaibhav Phartale	01:45 pm to 03:15 pm
9	L-5: Types of Data and Data Presentation	Lecture	75	Dr. Kiran Shinde	03:00 pm to 04:15 pm
10	L-6: Literature search	Lecture	45	Dr. Rutuja Pundakar	04:15 pm to 05:00 pm

REPORT OF WEBINAR ON PARASURGICAL PROCEDURES- NEW HORIZONS.

Shalyatantra department arranged National webinar on "Parasurgical Procedures-New Horizons"

The conference was arranged on 23 and 24th November 2020. We have 222 participants registered.

We had Dr. S.C Varshney, as President, Dr M Qadri sir as Chief Guest. We had eminent speakers- Dr. Y.G. Solanki, Dr. M.D. Samudri and Dr. S.P. Badole.

All speakers gave a feast of knowledge to all the participants. We also called for papers, for which we received 52 abstracts. Out of them we selected around 36 abstracts for Scientific Proceedings.

Out of these abstracts we have selected five papers for publication in the current issue of ijpo2.

We also take Question and Answer session with our respected speakers. It was very much useful for our participants.

The programme was ended with Thanks giving ceremony.

Report of Basic Research Methodology workshop

A Research Methodology Workshop was conducted at SMBT Ayurved College and Hospital, Post Graduate Institute Dhamangaon, Nashik from 17th to 19th May 2021. This workshop was organized by the PG Department.

The workshop was started with DhanvantariStavana. Welcome of all Participants was done by Principal DrBhabad sir. Few words about the Introduction and Importance of a Workshop were delivered by Dr.VarsharaniNiphade. The introduction of Participants and all Faculty members were done by Dr. AnushriNetake.

Following Faculty Addressed Key Issues In Research Methodology:-

- 1) Dr. AmitGujarathi- Asso. Professor. Department of Community Medicines, SMBT IMSR Center, DhamangaonNashik.
- 2) Dr. ManasiPadhyegujar – HOD, Professor Department of Community Medicines, SMBT IMSR Center, DhamangaonNashik.
- 3) Dr. VaibhavPhartale- Asso. Professor, Department of Kayachikitsa, ShriSaptashruni Ayurved College and Hospital, Nashik.
- 4) Dr. KiranShinde- Asso. Professor, Department of KaumarbhrutyaShriSaptashruni Ayurved College and Hospital, Nashik.
- 5) Dr. NeelamShrivastav- Asst.Professor. Department of Community Medicines, SMBT IMSR Center, DhamangaonNashik.
- 6) Dr. ShyamAshtekar- Asso. Professor. Department of Community Medicines, SMBT IMSR Center, DhamangaonNashik.
- 7) Dr. ShekharPadhyegujar- Professor Department of Community Medicines, SMBT IMSR Center, DhamangaonNashik.
- 8) Dr. BharatbhushanTelang- Asst.Professor. Department of Community Medicines, SMBT IMSR Center, DhamangaonNashik.
- 9) Dr. ParashuramPawar- Professor, Department of DravyagunaShriSaptashruni Ayurved College and Hospital, Nashik.
- 10) Dr. Jai Kini- Asso. Professor Department of Rognidan and V.V; YMT Ayurveda Medical College and Hospital, PG Institute, Navi Mumbai.
- 11) Dr. KavitaPatil- Asso. Professor, Department of Kayachikitsa, ShriSaptashruni Ayurved College and Hospital, Nashik.

Details:-

- 1) All 50 participants actively participated in this workshop.
- 2) We took daily Attendance of all participants for both the Morning and Evening time.
- 3) Total 18 hrs. Schedule was also followed.

All the sessions as per schedule were successfully conducted with mentioned time bound schedule as per approved by IMETTT.

This workshop was a grand success in terms of knowledge gained by the participants. It was assessed by Pre n Posttest questionnaires. Workshop was concluded by thanks giving ceremony.

This Workshop was conducted successfully under the guidance of Principal Dr. PradeepBhabad Sir, PG Coordinator Dr.ShilpaBadhe ,Workshop Coordinator Dr.Varsharani Niphade, DrAnushriEndait, DrShrihasPagare.

Schedule of Basic Research Methodology workshop

DAY ONE - Date: 17.05.2021, Monday

S. N	Topic	Method	Time (Min.)	Speaker	Time
1	Registration, Breakfast and Pre - Test				09:00 am to 10:00 am
2	L-1: Introduction to Research Methodology	Lecture	45	Dr. Amit Gujrathi	10:00 am to 10:45 am
3	L-2 : Study Designs-1: Descriptive studies	Lecture	45	Dr. Amit Gujrathi	10:45 am to 11:30 am
4	Tea		15		11:30 am to

					11:45 am
5	L-3 : Study designs-2: Case Control and Cohort Studies	Lecture	45	Dr. Manasi Padhyeguja r	11:45 am to 12:30 pm
6	L-4 : Study Designs-3: Experimental studies	Lecture	45	Dr. Vaibhav Phartale	12:30 pm to 01:15 pm
7	Lunch		30		01:15 pm to 01:45 pm
8	<p>Group Activity-1: Participants will be divided into 4 -5 groups.</p> <ul style="list-style-type: none"> • Each group will discuss among itself and come out with at-least 2 research questions and related hypothesis • Indicate why the topic was selected by the group over other topic • Indicate the type of study with reasons thereof • Indicate dependent and independent variables included in the study <p>(Tea may be served during group activity)</p>	Group Activity	90	Dr. Kiran Shinde Dr. Vaibhav Phartale	01:45 pm to 03:15 pm
9	L-5: Types of Data and Data Presentation	Lecture	75	Dr. Kiran Shinde	03:00 pm to 04:15 pm
10	L-6: Literature search	Lecture	45	Dr. Neelam	04:15 pm to 05:00 pm

DAY TWO - Date: 18.05.2021, Tuesday

S · N	Topic	Method	Time (Min .)	Speaker	Time
1	Breakfast & Tea				09:00 am to 09:30 am
2	Group Activity - 2: Participants will divide into groups as was done for GA-1 and GA-2. Each group will try to search references related to topics finalized and discussed in GA-1 and GA-2	Group Activity	45	Dr. Neelam Dr. Amit Gujrathi	09:30 am to 10:15 am
3	L-7: Sampling: Methods & Sample size	Lecture Demo	60	Dr. Ashtekar	10:15 am to 11:15 am
4	Group Activity-3: Participants will divide into groups as in GA-1. Each group will discuss and present <ul style="list-style-type: none"> • Sampling method adopted for the study / studies selected in GA-1 • Discuss and present sample size determined for the study • Present at least 3 dummy tables generated (Tea shall be served during group activity) 	Group Activity	75	Dr. Ashtekar Dr. Telang	11:15 am to 12:30 pm
5	L-8: Inferential Statistics	Lecture	60	Dr. Shekhar Padhyegujar	12:30 pm to 01:30 pm
6	Lunch		30		01:30 pm to 02:00 pm

7	Group Activity-4: The groups will discuss about the inferential statistics (statistical tests) to be applied for the study design discussed in earlier group exercises.	Group Work	45	Dr. Shekhar Padhyegujar Dr. Telang	02:00 pm to 02:45 pm
8	L-9: Questionnaire Designing	Lecture	60	Dr. Parshuram Pawar	02:45 pm to 03:45 pm
9	Tea		15		03:45 pm to 04:00 pm
10	L-10: Writing a research protocol	Lecture	60	Dr. Amit Naik	04:00 pm to 05:00 pm

DAY THREE - Date: 19.05.2021, Wednesday

S.N	Topic	Method	Time (Min)	Speaker	Time
1	Breakfast & Tea				09:00 am to 09:30 am
2	L-11: Ethical Issues In Medical Research Groups will present ethical issues in their respective studies	Lecture and Group activity	75	Dr. Parshuram Pawar	09:30 am to 10:45 am
3	Tea		15		10:45 am to 11:00 am
4	L-12: Evaluation of a diagnostic test	Lecture	60	Dr. Shekhar Padhyegujar	11:00 am to 12:00 pm
5	L-13: Critical Evaluation of Journal Article	Lecture	75	Dr. Manasi Padhyegujar	12:00pm to

					01:15 pm
6	Lunch		30		01:15 pm to 01:45 pm
7	GA-5: Two journal articles (different study designs) will be presented and discussed by members. (Tea shall be served during the group activity.)	Group activity	75	Dr. Manasi Padhyegujar Dr. Neelam	01:45 pm to 03:00 pm
8	L-14: Qualitative research methods	Lecture	45	Dr. Kavita Patil	03:00 pm to 03:45 pm
9	L-15: Computer assistance in Data Analysis Excel and EPI Info.	Lecture	45	Dr. Ashtekar	03:45 pm to 04:30 pm
10	Post - Test and Valedictory				04:30 pm to 05:00pm

As Per Guidelines of IMETTT we organize **Approved Faculty Members** on each day of program:
 Faculty members are as follows:

- Dr. Amit Naik** :- (SMBT Institute of Medical Sciences & Research Center, Dhamangaon, Nashik)
- Dr. Kavita Patil** :- (Shree Saptashruni Ayurved Mahavidyalay & Hospital, Nashik)

Department of Shalaky Tantra International Webinar Report

SMBT AYURVEDA COLLEGE AND HOSPITAL, DHAMANGAON, IGATPURI, NASHIK, Had organized international webinar on Update shalaky tantra 2021 on 28th September 2021 from 11.00 pm to 1.00 pm which was organized by SHALAKYATANTRA DEPARMENT on occasion of International Deaf Week. The webinar was intended for UG-PG Students, practitioners and faculties. Total 460 delegates were registered for webinar.

270 delegates joined webinar by zoom link. Also webinar was live on Facebook page of SMBT College. Webinar started with Dhanvantari Stavana . Welcome done by Patron Dr Bhabad Sir, Principal of SMBT Ayurved College and organizing secretary Dr Tushar Firke, Professor of Shalakyatantra Department had quoted Purposes of webinar. Webinar was blessed by chief Guest Dr K.S. Dhiman sir, Former member of CCRS and HOD of Shalakyatantra Department of BHU Ayurved College . Chair Person was Dr Neelakshi Pradhan Madam, Professor and HOD of Shalakyatantra Department, Sumatibai Shah Ayurved Mahavidyalaya and Research Centre, Hadapsar.

Guest speaker 1 -Dr Priyanka More, MS Shalakyatantra , Consultant at UK delivered lecture on Topic Mindful listening to " Hearing Loss" . 2nd Speaker Dr.Pundareekaksha Rao ,MD (Ay.), MA(Skt.), Dip.In Yoga, Associate professor &HOD, Dept. Of Shalaky (Ayurvedic ophthalmology, ENT and Oral medicine), Ayurveda College Coimbatore, Tamilnaduand guided on Topic Audiometry and its Analysis. Webinar concluded by Chairperson Dr Nilakshi Pradhan Madam and question answer session and vote of thanks.

Sincere efforts were taken by Trustee of SMBT College, patron Dr Bhabad Sir, HOD of Shalakyatantra DrJyoti Nirbhavane Madam, Organising Secretary Dr Tushar Firke sir , Dr Kajal Firke madam , Associate Professor of Shalakyatantra Department, Dr Suwarna Chaudhari, Assistant Professor of Shalakyatantra Department , Dr. Mohini Jadhav Assistant Professor of Shalakyatantra Department. The Webinar was highly appreciated by delegates, Speakers, Members of TAAS and 198 feedback form was enrolled by participant. Auto generated Certificate was provided to participants after filling feedback from. Excellence was the feedback of webinar.

GOOD CLINICAL PRACTICES

Good Clinical Practice (GCP) is an international ethical and scientific quality standard for the design, conduct, performance, monitoring, auditing, recording, analyses and reporting of clinical trials. It also serves to protect the rights, integrity and confidentiality of trial subjects.

Good Clinical Practice (GCP) is an international ethical and scientific quality standard for the design, conduct, performance, monitoring, auditing, recording, analyses and reporting of clinical trials. It also serves to protect the rights, integrity and confidentiality of trial subjects. It is very important to understand the background of the formation of the ICH-GCP guidelines as this, in itself, explains the reasons and the need for doing so. In this paper, we address the historical background and the events that led up to the formation of these guidelines. Today, the ICH-GCP guidelines are used in clinical trials throughout the globe with the main aim of protecting and preserving human rights.

What are the goals of GCP? What are the goals of GCP?

- * To protect the rights, safety and welfare of humans participating in research
- * To assure the quality, reliability and integrity of data collected
- * To provide standards and guidelines for the conduct of clinical research
- * Good Clinical Practice = Ethics + Quality Data

Course Date- 7th and 8th October 2021

Name of the section who organized event - HSET cell.

Summary

Inauguration of VAC was done by- Resp.Dr, Pradeep Bhabad Sir.
Pre-Test was conducted

Aim of Training/ Agenda--

- 1- To protect the rights, safety and welfare of humans participating in research
- 2- To assure the quality, reliability and integrity of data collected
- 3- To provide standards and guidelines for the conduct of clinical research.
- 4- Good Clinical Practice = Ethics + Quality Data

Summary of Lectures--

1- Introduction of ICH-GCP By Dr. Satish Urhe-

Good Clinical Practice (GCP) is an international ethical and scientific quality standard for designing, conducting, recording and reporting trials that involve the participation of human subjects. GCP protects-The rights, safety and wellbeing of study participants. GCP - Increased Ethical Awareness. GCP- Prevents Frauds and Accidents during Trials. Voluntary informed consent must be essential for Clinical Trials.

2- Principles of ICH-GCP By Dr. Varsharani Niphade

Good clinical practices are applicable for the research where trial subjects are Human Beings. GCPs are necessary to establish the safety and effectiveness of specific health or medical related products and practice- it may be drug, lab investigation or any intervention.

GCP has 13 core principles.

- 1) Principle of Ethical conduct - Research involving human subject should be conducted ethically in accordance with basic principles of equal importance - Respect, Beneficence & Justice of person.
- 2) Protocol of Clinical Research - the protocol should be scientifically justified and described in a clear & detailed manner.
- 3) Risk Identification- Before initiation of clinical research, Foreseeable Risk, discomfort and any anticipated Benefits for trial subject & society should be identified. When the anticipated benefits clearly outweigh the risk, then only can start the clinical trials.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph: (02553) 282341
Email : principalayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

- 4) Review by IEC/IRB- Clinical research should receive Independent Ethics Committee Or Institutional Review Boards approval prior to initiation of trial.
 - 5) Protocol Compliance- The trial should be conducted in compliance with only approved protocol.

 - 6) Informed Consent- Freely given informed consent should be obtained from every subject prior to research participatio in accordance with national culture and requirements.
 - 7) Ongoing Benefit/Risk Assessment- The clinical research should be continued only the benefit/ risk profile remains favorable.
 - 8) Investigator Qualification- Qualified and duly licensed Medical personnel should be responsible for the medical care of trial subject & when necessary any medical decision made on behalf of trial subject.
 - 9) Staff Qualification- Each individual in a clinical research should be qualified by education, Training and experience.
 - 10) Record- All clinical trial information should be recorded, handled & stored in a way that allows its accurate reporting interpretation and verification.
 - 11) Privacy and Confidentiality - The confidentiality of record that could reveal the identity of trail subject should be protected.
 - 12) Good Manufacturing Practices- Investigational products should be manufactured, handled & stored in accordance with applicable GMP practice & should be used in accordance with the approved protocol.
 - 13) Quality System- Systems with procedures that assure the quality of every aspect of the trial should be implemented.
- Importance of GCP- GCPs are important for the establishment of ethical & scientific quality standards for the design, conduct, recording, & reporting of a clinical research involving the participation of human subjects.

3- Roles and Responsibilities of IEC By Dr. Ankush Gunjal-

The role of IEC in clinical trial is very important. IEC is responsible for the safety of trial subject.

The following are the contents of topic.

- 1) Need of ethics committee.
- 2) Constitution of ethical committee.
- 3) Roles and responsibilities of ethical committee.
- 4) Ethical issues handled by ethical committee.

4- Informed Consent By Dr Shilpa Badhe

Informed consent is the process in which a health care provider educates a patient about the risks, benefits, and alternatives of a given procedure or intervention. The patient

SMBT Sevasthavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghosi, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email: principal@ayurved@smbt.edu.in | smbt@ayurved@gmail.com | www.smbt.edu.in

must be competent to make a voluntary decision about whether to undergo the procedure or intervention. Informed consent is both an ethical and legal obligation of medical practitioners. The following are the required elements for documentation of the informed consent discussion:

- (1) the nature of the procedure,
- (2) the risks and benefits and the procedure,
- (3) reasonable alternatives,
- (4) risks and benefits of alternatives, and
- (5) assessment of the patient's understanding of elements 1 through 4.

5- Protocol Elements By Dr Viraj Kelkar

The lecture was conducted online on a zoom platform. Content of a protocol elements topic, what is research protocol. Need of writing research protocol was narrated briefly. Elements of research protocol are Title, Introduction, Aim objectives, Literature review, Methodology, Data collection, Analysis and interpretation method, Ethical consideration, study time frame, Reference style, Bibliography, List of Abbreviation, Budget, Annexure explained in detail with some examples given.

6- Roles and Responsibilities of Investigator and Sponsor By Dr. Shrihas Pagare

Topic conducted was Roles and responsibilities of Investigator and Sponsor. Brain storming activity was conducted at the start of session. The definition of Investigator in research was explained during this session. Also the concept of 'Sponsor' was explained. The concept of 'Principal investigator' (PI) was explained. The qualification, experience, adequacy of resources, protocol writing, importance of informed consent was elaborated. The responsibilities of Investigator such as Safety of patient, Reporting of SAE, care of patients during clinical trial & final report submission were conducted. The responsibilities of Sponsor such as selection of Investigator, Allocation of responsibilities, financing, Noncompliance's, compensations, quality assurance and quality control etc. Were briefly explained at the end of this session.

7- Medical Negligence & Laws of GCP By Dr Kiran Mantri-

Medical Negligence It could be defined as a failure to perform the duty to exercise a reasonable degree of skill and care in the treatment of patient. Types of Negligence are Civil

Negligence and Criminal Negligence. Precautions against Medical Negligence are steps such as

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email : principalayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

Never guarantee a cure, Obtain informed consent from the patient, etc. Laws Related to Medical

Negligence are CPC, CrPC, IPC and CONSUMER PROTECTION ACT 1986.

8-Vulnerable Population By Dr Shilpa Badhe

A vulnerable population is a group of people that requires greater protection than normal against the potential risks of participating in research.

The justification for involving the vulnerable population in research is mainly when a particular problem affects that group. However, it is important to understand that participation in biomedical research not only poses risks, but also may provide benefit to participants and society.

Investigators need to explain why they have chosen to conduct the research in children or other vulnerable group instead of in a group that is more able to protect themselves. The desire to protect must be balanced with the need to conduct research in order to advance medical science in order to benefit those same vulnerable populations.

The concern with involving vulnerable persons is twofold. First, no ethical justification exists for excluding vulnerable populations. In fact, it is unethical to exclude such populations from research in that their exclusion restricts knowledge development in areas that would ultimately benefit that group.

Limited autonomy = vulnerable populations

Vulnerable populations are so-named because:

They are vulnerable to undue influence or coercion

Undue Influence = "...an offer of an excessive,unwarranted, inappropriate or improper reward or other overture in order to obtain compliance"

Coercion = "...an overt threat of harm is intentionally presented by one person to another in order to obtain compliance."

They have limited comprehension and understanding(i.e., children)

The following groups are defined as vulnerable in the federal regulations:

Pregnant women, fetuses, and neonates

Children

Prisoners

10-Mana Paribhasha(Ayurveda Mana Paribhasha) By Dr Santosh Niphade

Mana Paribhasha..

The meaning of Mana is Measures- through which the weight, volume, length of substance is weighed or measured.

Without proper knowledge of measurements it is not possible to formulate a good quality drug or to prescribe it for patients.

Two types of Mana- Kaling & Maghadha were used in classical texts. Out of which Magadha Mana is more superior.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

Classical unit of Mana were compared with Metric equivalent, so the researchers can easily calculate the actual measures.

Tried to make it simple with some examples of Ayurveda drug formulation like Abhayarishta, Kumariaasava, Dadimadi Ghрут etc.

Translation of Some Mana which are difficult to convert in metric equivalent like Rajkolfalopama, Gunja, Shan etc were well explained.

One activity with example of Valla pramaan was given to researchers, where they found the correct measure of Valla in metric equivalent is 375 mg.

It definitely help to understand the Mana Pramana topic.

Handout related to topic was distributed to all participants.

11-GMP & Formulations of Ayurvedic Medicines By Dr Sunita Bhusare

GMP AND AYURVEDIC DRUG PREPARATION.

For ASU drugs introduced since 23 rd JUNE 2000 {SCHEDULE 'T' Under (Rule 157B)} of Drugs & Cosmetic Rules. Good Manufacturing Practice Is A System Implemented By The Gov. Of India To Insure The Production Of Good Quality Product And To Minimize The Production Of Adulterated And Substandard ASU Medicine. GMP Ensures That Pharmacy Execute Consistent Within Safe Environment, Hence It Prevent Contamination, Recalls, And Loss Of Profit. Gmp Comes With Strict Protocols That Lessen The Risk Of Manufacturing Errors.

To ensure: - i) Raw materials used in the manufacture of drugs are authentic, of prescribed quality and are free from contamination.

ii) The manufacturing process is as has been prescribed to maintain the standards.

iii) Adequate quality control measures are adopted.

iv) The manufactured drug which is released for sale is of acceptable quality.

Investigational Product Should Be Manufactured, Handled And Stored In Accordance With Applicable Good Manufacturing Practice And Should Be Used In Accordance With The Approved Protocol.

12-GCP and Standard Pancharma Procedures By Dr Anushree Netke

We need to go through our classics, all GCPs are mentioned there for Standard Panchakarma procedures but also we need to adopt the newer techniques for effective and promising Panchakarma results. We can co relate Ayush guidelines with our classics for standard Panchakarma procedures such as Upkalpaniya adhyay of CharakSutrasthanalso the Siddhistan of CharakUttarardha.

Also, our methods should be simple, economical, easy to conduct, time friendly and suitable to patients with convenience.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Email : principalayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

13-Adverse Drug Reaction By Dr Amol Gulve

Adverse drug reactions (ADRs) – unintended, harmful events attributed to the use of medicines – occur as a cause of and during a significant proportion of unscheduled hospital admissions.

There are 3 types of ADR on the basis of onset i.e. Acute, subacute, latent. Also there are 6 types of ADR i.e. Augmented, Bizarre, chronic/continues, Delayed, End of drug, failure of efficacy also called type A, type B, type C, type D, type E, type F respectively. where type A is Predictable and Type B was unpredictable bcoz of Immune response and Genetic makeup of patients.

For identification of ADR we can perform Challenge-De Challenge-Rechallenge method. And use Stop-Pause-Reduce and Treatment method for treating the ADR. For detection of ADR, Naranjo question scale was used.

Preventing ADRs depends on avoiding treatment in cohorts of patients who are at increased susceptibility or providing treatment under a therapeutic plan that reduces the

risk of an adverse effect (eg co-administration of other drugs, monitoring blood test results).

Spontaneous reporting (using the Yellow Card Scheme in the UK) based on the suspicion of an ADR is an important part of pharmacovigilance but, overall, ADRs are vastly underreported across healthcare settings and sectors.

14- Pharmacovigilance By Dr Rajesh Wankhede-

Aim and Objectives are to improve patient care and safety in relation to the use of medicine and all medical and paramedical intervention.

- 1) To improve Public Health and safety in relation to use of medicine.
- 2) To contribute to the assessment of benefits, Harmfulness, effectiveness and risk of medicine, encouraging their safety, rational and more effective use.
- 3) To promote understanding, education and clinical training to health professionals in pharmacovigilance and its effective communication and the public, were the objectives of session the information about international pharmacovigilance centre UPPSALA & reporting of a ADR with Yellow card scheme was explained in detail manner.

15- Healthy Lifestyle By Dr. Vaishali Bhabad-

Healthy lifestyle has significant role in our day to day life..Many clinical researches can be done on upcoming emerging diseases and lifestyle diseases in which healthy lifestyle and immunity will play important role. Component of healthy lifestyle mainly contribute healthy diet, regular physical activity, sleep pattern, stress management.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

Clinical research healthy lifestyle will have significant contribution. So Investigators has to mention healthy lifestyle modification in protocol accordingly. Ethical conduct, informed consent will necessary for lifestyle modification.

Feedback, Post Test and Certificate Distribution was done.
After assessment of feedback it is observed that some points for improvement are suggested by the participant are schedule is more theoretical and was too tight. So the brain storming activities will be added in next workshop.

Notice Of National Webinar

To,

All Respected Teachers,

All UG (Third Year) and PG (MS,PTSR) Students,

On the occasion of "Azadi ka Amrut Mahotsav 2021"

1. It is being informed to you that Department of **Prasutitantra and Streerog** has organised **National Webinar** on topic "**Shukra Dushti - Semen Abnormalities Text to Practice.**"
2. Attendance of all PG students is compulsory for this Webinar.

Date : 20th October, 2021

Time – 11.00 am to 1.00 pm

Guest Speaker – Dr Premraj Khairnar (MS Prasutitantra and Streerog)

H.O.D.

Prasutitantra avum streerog

HOD & Professor

Dept of Stritoga & Prasutitantra

S.M.B.T.Ayurved College

Abnormalities Text to Practice"**

**Name of the Program - National Webinar on "Shukradushti-Semen
Abnormalities Text to Practice"**

Occasion - "AZADI KA AMRIT MAHOTSAV - 2021"

Date and Time: - 20/10/2021 at 11.00 am to 1 pm

Speaker-Dr.Premraj Khairnar MS (Prasutitantra and Strirog),

Director Matru Nursing Home,Nashik

Aim of the program -

To understand practical aspects of Shukra dushti ,its Investigations,
treatment.

Summary -

Dr Premraj Khairnar Sir guided us about practical aspects of Semen abnormalities, investigation procedure as well as integrated management of male Infertility. Session was very informative with videos and case presentation. Webinar was conducted under guidance of Principal Dr Pradeep Bhabad sir.

Total Number of delegates attended webinar - 120

Coordinator Teachers -Dr Pradnya Deshmukh, Dr Vijay Nawale,

Dr Sameer Gholap , Prashant Patil, Dr Bhushan Gawale, Dr Harsha Pardeshi, Dr Sonali Pharate, Dr Darshna Borkar.

Date: 31-12-2021

REPORT OF GOOD CLINICAL PRACTICES WORKSHOP

In SMBT Ayurved College and Hospital Curriculum committee and HSET was conducted Value Added Course Good clinical Practices for first year PG students and Teaching Staff to add knowledge regarding Good Practices.

Date and time of the event: 29-12-21 to 30-12-21

Location of the event - SMBT Ayurved college & Hospital-Seminar Hall

- Teaching Staff-13
- PG Students - 16

Resource Person - As Per Schedule

Name of the section who organized event - HSET cell.

Summary -

Inauguration of VAC was done by- Resp. Dr. Pradeep Bhabad Sir.

Pre-Test was conducted.

Aim of Training/ Agenda -

- 1- To protect the rights, safety and welfare of humans participating in research.
- 2- To assure the quality, reliability and integrity of data collected.
- 3- To provide standards and guidelines for the conduct of clinical research.
- 4- Good Clinical Practice = Ethics + Quality Data.

Summary of Lectures--

1- Introduction of ICH-GCP By Dr. Satish Urhe-

Good Clinical Practice (GCP) is an international ethical and scientific quality standard for designing, conducting, recording and reporting trials that involve the participation of human subjects. GCP protects-The rights, safety and wellbeing of study participants.GCP - Increased Ethical Awareness. GCP- Prevents Frauds and Accidents during Trials. Voluntary informed consent must be essential for Clinical Trials.

2- Principles of ICH-GCP By Dr. Varsharani Niphade

Good clinical practices are applicable for the research where trial subjects are Human Beings. GCPs are necessary to establish the safety and effectiveness of specific health or medical related products and practice- it may be drug, lab investigation or any intervention.

GCP has 13 core principles

- 1)Principle of Ethical conduct - Research involving human subject should be conducted ethically in accordance with basic principles of equal importance - Respect, Beneficence& Justice of person.
- 2) Protocol of Clinical Research- the protocol should be scientifically justified and described in a clear & detailed manner.
- 3) Risk Identification- Before initiation of clinical research, Foreseeable Risk, discomfort and any anticipated Benefits for trial subject & society should be identified.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpur, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

When the anticipated benefits clearly outweigh the risk, then only can start the clinical trials.

- 4) Review by IEC/IRB- Clinical research should receive Independent Ethics Committee Or Institutional Review Boards approval prior to initiation of trial.
- 5) Protocol Compliance- The trial should be conducted in compliance with only approved protocol.
- 6) Informed Consent- Freely given informed consent should be obtained from every subject prior to research participation in accordance with national culture and requirements.
- 7) Ongoing Benefit/Risk Assessment- The clinical research should be continued only the benefit/ risk profile remains favorable.
- 8) Investigator Qualification- Qualified and duly licensed Medical personnel should be responsible for the medical care of trial subject & when necessary any medical decision made on behalf of trial subject.
- 9) Staff Qualification- Each individual in a clinical research should be qualified by education, Training and experience.
- 10) Record- All clinical trial information should be recorded, handled & stored in a way that allows its accurate reporting interpretation and verification.
- 11) Privacy and Confidentiality - The confidentiality of record that could reveal the identity of trail subject should be protected.
- 12) Good Manufacturing Practices- Investigational products should be manufactured, handled & stored in accordance with applicable GMP practice & should be used in accordance with the approved protocol.
- 13) Quality System- Systems with procedures that assure the quality of every aspect of the trial should be implemented.

Importance of GCP - GCPs are important for the establishment of ethical & scientific quality standards for the design, conduct, recording & reporting of a clinical research involving the participation of human subjects.

3- Roles and Responsibilities of IEC By Dr. Ankush Gunjal-

The role of IEC in clinical trial is very important. IEC is responsible for the safety of trial subject. The following are the contents of topic.

- 1) Need of ethics committee.
- 2) Constitution of ethical committee.
- 3) Roles and responsibilities of ethical committee.
- 4) Ethical issues handled by ethical committee.

4- Informed Consent By Dr. Shilpa Badhe

SMBT Savabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Gholl, Tal. Igatpur, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

Informed consent is the process in which a health care provider educates a patient about the risks, benefits, and alternatives of a given procedure or intervention. The patient must be competent to make a voluntary decision about whether to undergo the procedure or intervention. Informed consent is both an ethical and legal obligation of medical practitioners. The following are the required elements for documentation of the informed consent discussion:

- (1) the nature of the procedure,
- (2) the risks and benefits and the procedure,
- (3) reasonable alternatives,
- (4) risks and benefits of alternatives, and
- (5) Assessment of the patient's understanding of elements 1 through 4.

5- Protocol Elements By Dr. Varsharani Niphade

Research protocol should be written in definite manner. Following are the elements of writing research protocol.

- 1) Definition of research.
- 2) Definition of research protocol.
- 3) Need of written research protocol.
- 4) Elements of research protocol- Title, Introduction, Aim-Objectives, Literature review, Methodology, Data collection, Analysis and interpretation methods, Ethical consideration, Study time frame, Reference style, Bibliography, List of Abbreviation, Budget, Annexure.
- 5) Protocol violation,.
- 6) Common pitfalls to avoid while writing research protocol.

All these aspects are covered in a lecture in detail manner.

6- Roles and Responsibilities of Investigator and Sponsor By Dr.Jitesh Thakur

Topic conducted was Roles and responsibilities of Investigator and Sponsor. Brain storming activity was conducted at the start of session. The definition of Investigator in research was explained during this session. Also the concept of Sponsor was explained. The concept of Principal investigator (PI) was explained. The qualification, experience, adequacy of resources, protocol writing, importance of informed consent was elaborated. The responsibilities of Investigator such as Safety of patient, Reporting of SAE, care of patients during clinical trial & final report submission were conducted. The responsibilities of Sponsor such as selection of Investigator, Allocation of responsibilities, financing, Noncompliance's, compensations, quality assurance and quality control etc. Were briefly explained at the end of this session.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

7- Medical Negligence & Laws of GCP By Dr. Kiran Mantri-

Medical Negligence It could be defined as a failure to perform the duty to exercise a reasonable degree of skill and care in the treatment of patient. Types of Negligence are Civil Negligence and Criminal Negligence. Precautions against Medical Negligence are steps such as Never guarantee a cure, Obtain informed consent from the patient, etc. Laws Related to Medical Negligence are CPC, CrPC, IPC and CONSUMER PROTECTION ACT 1986.

8-Vulnerable Population By Dr Shilpa Badhe

A vulnerable population is a group of people that requires greater protection than normal against the potential risks of participating in research.

The justification for involving the vulnerable population in research is mainly when a particular problem affects that group. However, it is important to understand that participation in biomedical research not only poses risks, but also may provide benefit to participants and society.

Investigators need to explain why they have chosen to conduct the research in children or other vulnerable group instead of in a group that is more able to protect themselves. The desire to protect must be balanced with the need to conduct research in order to advance medical science in order to benefit those same vulnerable populations.

The concern with involving vulnerable persons is twofold. First, no ethical justification exists for excluding vulnerable populations. In fact, it is unethical to exclude such populations from research in that their exclusion restricts knowledge development in areas that would ultimately benefit that group.

Limited autonomy = vulnerable populations

Vulnerable populations are so-named because:

They are vulnerable to undue influence or coercion

Undue Influence = "...an offer of an excessive, unwarranted, inappropriate or improper reward or other overture in order to obtain compliance"

Coercion = "...an overt threat of harm is intentionally presented by one person to another in order to obtain compliance."

They have limited comprehension and understanding (i.e., children)

The following groups are defined as vulnerable in the federal regulations:

Pregnant women, fetuses, and neonates

Children

Prisoners

10- Mana Paribhasha (Ayurveda Mana Paribhasha) By Dr Santosh Niphade

Mana Paribhasha..

The meaning of Mana is Measures- through which the weight, volume, length of substance is weighed or measured.

Without proper knowledge of measurements it is not possible to formulate a good quality drug or to prescribe it for patients.

Two types of Mana- Kaling&Maghadha were used in classical texts. Out of which Magadha Mana is more superior.

Classical unit of Mana were compared with Metric equivalent, so the researchers can easily calculate the actual measures.

Tried to make it simple with some examples of Ayurveda drug formulation like Abhayarishta, Kumariaasava, DadimadiGhrut etc.

Translation of Some Mana which are difficult to convert in metric equivalent like Rajkolfalopama, Gunja, Shanetc were well explained.

One activity with example of Valla pramaan was given to researchers, where they found the correct measure of Valla in metric equivalent is 375 mg.

It definitely help to understand the ManaPramana topic.

Handout related to topic was distributed to all participants.

11-GMP & Formulations of Ayurvedic Medicines By Dr. Sunita Bhusare

GMP AND AYURVEDIC DRUG PREPARATION -

For ASU drugs introduced since 23 rd JUNE 2000 {SCHEDULE "T" Under (Rule157B)} of Drugs & Cosmetic Rules. Good Manufacturing Practice Is A System Implemented By The Gov. Of India To Insure The Production Of Good Quality Product And To Minimize The Production Of Adulterated And Substandard ASU Medicine. GMP Ensures That Pharmacy Execute Consistent Within Safe Environment, Hence It Prevent Contamination, Recalls, And Loss Of Profit. Gmp Comes With Strict Protocols That Lessen The Risk Of Manufacturing Errors.

To ensure: - i) Raw materials used in the manufacture of drugs are authentic, of prescribed quality and are free from contamination.

ii) The manufacturing process is as has been prescribed to maintain the standards.

iii) Adequate quality control measures are adopted.

iv) The manufactured drug which is released for sale is of acceptable quality. Investigational Product Should Be Manufactured, Handled And Stored In Accordance With Applicable Good Manufacturing Practice And Should Be Used In Accordance With The Approved Protocol.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

12- GCP and Standard Pancharma Procedures By Dr. Anushree Netke

We need to go through our classics, all GCPs are mentioned there for Standard Panchakarma procedures but also we need to adopt the newer techniques for effective and promising Panchakarma results. We can co relate Ayush guidelines with our classics for standard Panchakarma procedures such as Upkalpaniya adhyay of CharakSutrasthanalso the Siddhisthan of CharakUttarardha. Also, our methods should be simple, economical, easy to conduct, time friendly and suitable to patients with convenience.

13- Adverse Drug Reaction By Dr. Amol Gulve

Adverse drug reactions (ADRs) – unintended, harmful events attributed to the use of medicines – occur as a cause of and during a significant proportion of unscheduled hospital admissions.

*Their are 3 types of ADR on the basis of onset i.e. Acute, Subacute, latent. Also there are 6 types of ADR i.e. Augmented, Bizarre, chronic/continues, Delayed, End of drug, failure of efficacy also called type A, type B, type C, type D, type E, type F respectively. where type A is Predictable and Type B was unpredictable because of Immune response and Genetic makeup of patients.

For identification of ADR we can perform Challenge-De Challenge-

Rechallenge method. And use Stop-Pause-Reduce and Treatment method for treating the ADR. For detection of ADR, Naranjo question scale was use.

Preventing ADRs depends on avoiding treatment in cohorts of patients who are at increased susceptibility or providing treatment under a therapeutic plan that reduces the risk of an adverse effect (eg co-administration of other drugs, monitoring blood test results).

Spontaneous reporting (using the Yellow Card Scheme in the UK) based on the suspicion of an ADR is an important part of pharmacovigilance but, overall, ADRs are vastly underreported across healthcare settings and sectors.

14-Pharmacovigilance By Dr Rajesh Wankhede-

Aim and Objectives are to improve patient care and safety in relation to the use of medicine and all medical and paramedical intervention.

- 1) To improve Public Health and safety in relation to use of medicine.
- 2) To contribute to the assessment of benefits ,Harmfulness, effectiveness and risk of medicine,encouraging their safety,rational and more effective use.
- 3) To promote understanding ,education and clinical training to health professionals in pharmacovigilance and its effective communication and the public. Were the objectives of session the information about Central Drug Standard Control Organization - CDSCO was given briefly. For severity assessment of ADR - Hartwings scale was used. Roles & activities of pharmacovigilance Centre was

explained. Nearest centre for reporting of a pharmacovigilance to SMBT Ayurved Hospital is R.A. Podar Medical (Ayurved) College Worali, Mumbai.

15- Healthy Lifestyle By Dr. Vaishali Bhabad-

Healthy lifestyle has significant role in our day to day life..Many clinical researches can be done on upcoming emerging diseases and lifestyle diseases in which healthy lifestyle and immunity will play important role. Component of healthy lifestyle mainly contribute healthy diet,regular physical activity, sleep pattern, stress management. In Clinical research healthy lifestyle will have significant contribution. So Investigators has to mention healthy lifestyle modification in protocol accordingly. Ethical conduct, informed consent will necessary for lifestyle modification.

Post Test, Feedback and Certificate Distribution was done. The workshop was ended with Vote of thanks provided by Dr. Sonali Pharate.

When feedback of a workshop is assessed for further improvement it is suggested to add group activities related to the GCP in same workshop. Most of participants provided feedback that this VAC will add some more knowledge and values about a conduction of human trials. It will help researchers to improve their clinical research work in future.

Date: 11.04.2022

NOTICE OF WEBINAR

1. All the students and teachers are here by informed that Agadtantra department of SMBT Ayurved College & Hospital, Dhamangaon, arranged a National Webinar on Agadtantra "Sanjeevani - 2022" Current update on Medical Practice, event under Azadi Ka Amrit Mohotsav of SMBT Ayurved College & Hospital dated on 13.04.2022
2. All the students and teachers of institute are hereby requested to participated in programme.

Date and time -

13.04.2022 at 10.00 am to 01.00 pm

Venue -

Zoom App. Online Mode.

**AGADTANTRA WEBINAR
SANJEEVANI 2022**

PROGRAMME SCHEDULE

Day & Date :- Wednesday - 13.04.2022

Sr. No.	Time	
1	10.00 am	Welcome & Introduction of Webinar
2	10.05 am	Dhanvantari Stavan
3	10.07 am	Welcome Address by Dr. Kiran Mantri Sir (HOD)
4	10.10 am	Introduction of Chief Guest Dr. Abhay Patkar Sir
5	10.12 am to 10.30 am	Keynote Speech by Dr. Abhay Patkar Sir
6	10.31 am to 10.33 am	Introduction of Chairperson 1 (Dr. Dhiraj Patil Sir) & Guest Lecture Speaker 1 (Dr. Vishal Wagh Sir)
7	10.35 am to 11.30 am	Guest Speaker Talk Dr. Vishal Wagh & 5 Min Remark by Chairperson 1
8	11.31am to 11.34 am	Introduction of Chairperson 2 (Dr. Sagar Narode Sir) & Guest Speaker 2 (Dr. Abhijeet Gokhale Sir)
9	11.35 am to 12.30 pm	Guest Speaker Talk 2 Dr. Abhijeet Gokhale & 5 Min Remark by Chairperson 2
10	12.35 pm to 12.45 pm	Question & Answer
11	12.50 pm	Vote of Thank - Dr. Pagare Sir
End of Webinar

Date- 20.04.2022

Webinar Report

SMBT Ayurved College And Hospital, Nandi hills, Dhamangaon, Tal- Igatpuri, Dist - Nashik had organized **National Seminar on Agadtantra "Sanjeevani 2022" - Current Update in Medical Practice** on date: **13th April 2022, Time : 10.00 am to 01:00 pm** under Azadi Ka Amrit Mahotsav. Webinar was intended for UG students, PG students, PhD Scholars, Faculty & Practitioners. Total **661 delegates** had registered for the webinar. They were allowed to join through Zoom app. Platform.

The welcome speech was given by Dr. Kiran Mantri, Asso. Professor, Department of Agadtantra, SMBT Ayurved College And Hospital, Nandi hills, Dhamangaon. Dr Abhay Patkar, Professor, Dept. of Agadtantra, Ayurved Seva Sangh's Ayurved Mahavidyalaya, Panchavati, Nashik was the chief guest and keynote speaker for the webinar. He shared his views on current status of Ayurved Graduates and post-graduates related to Medical Practice. The guest speaker 1 - Dr. Vishal Wagh, Asst. Professor Dept. of Agadtantra, Anand Ayurved College, Vaijapur, talked on Medical Negligence. The First Session was chaired by Dr. Dhiraj Patil, Asso. Professor, Dept. of Agadtantra, Matoshri Asarabai Darade Ayurved Mahavidyalaya, Yeola, Nashik. The guest speaker 2 - Dr. Abhijeet Gokhale, Medical Officer, Sub Dist. Hospital, Manmad, talked on Medical Autopsies. The Second Session was chaired by Dr. Sagar Narode, Professor, Dept. of Agadtantra, Shree Saptashrunghi Ayurved Mahavidyalaya, Nashik. Both the guest speakers shared their knowledge & Practical experiences.

Patron for this webinar was Hon. Dr. Pradeep Bhabad, Principal, SMBT Ayurved College and Hospital, Nandi hills, Dhamangaon, Tal - Igatpuri, Dist- Nashik. The organizing secretary Dr. Kiran Mantri, Asso. Professor & HOD, Department of Agadtantra. The anchoring for the webinar was done by Dr. Nivedita Dhanvijay, Assistant professor, Department of Rognidan. Dr. Janhavi Rane, Professor, Department of Agadtantra and Dr. Shrihas Pagare, Assistant professor, Department of Agadtantra worked for the success of webinar. Vote for thanks was given by Dr. Shrihas Pagare.

The webinar was highly appreciated by entire delegates and feedback was excellent. **E certificate** were provided to registered participant.

Date: 27/06/2022

BASIC RESEARCH METHODOLOGY WORKSHOP REPORT

1. In SMBT Ayurved College and Hospital, a 3 days '**BASIC RESEARCH METHODOLOGY WORKSHOP**' was successfully conducted with affiliation of MUHS having reference No. MUHS/ IMETTT/86/2022 dated on 07/06/2022.
2. **Location-** SMBT Ayurved College Seminar Hall.
3. **Date of Conduction-** 22nd to 24th of June 2022. 9:00am- 5:00 pm.
4. **Name of the Organizing Department-** HSET Cell of College.
5. **Aim of The Workshop-** To give handful training of Basic Research Methodology to PG Students and Faculty members, so it can help them for their Research work in future.
6. **Participants- PG students-** From SMBT Ayurved College -18
Out Side the SMBT Ayurved College -08
Faculty Members from SMBT Ayurved College- 04.
7. The workshop was started at 9:00 am with Dhanvantari Stavana and Lamp lightening ceremony by hands of respected principal Dr.Pradeep Bhabad sir. Welcome of all Participants was done by Principal Sir. Few words about the Introduction and Importance of a Workshop were delivered by workshop Coordinator Dr. Varsharani Niphade . HOD of PG departments Dr. Vijay Suryawanshi, Dr. Shilpa Badhe, DR. Pradnya Deshmukh and Dr. Jyoti Nirbhawane were also present for the inauguration of workshop. Ice-Breaking was done with the introduction of Participants to all Faculty members. It is done by Dr. Monali Bagade madam.
8. Registration, Declaration and Pre Test for workshop was conducted Online through Google Forms provided on Mail ID of participants. Soft copy of these are maintained with mail rmw.smbtayu@gmail.com.
9. **Summary-** After registration, declaration and Pre-test completion the First day sessions were started.
10. **Introduction to Research Methodology-** The lecture was delivered by Dr. Varsharani Niphade. She explained the following terms -
 - I. Research Methodology is defined as a highly intellectual human activity used in the investigation of Nature and Matter & deals with the manner in which data is collected, analyzed and interpreted.
 - II. Evolution of Research from Trial of Legumes, Scurvy trial to Randomized trial of Streptomycin in PTB.
 - III. Ayurveda terms for Research are Anusandhana, Anveshana, Gaveshana, Paryeshana and Shodh.

- IV. "Finding out the new facts or verification of the old facts to follow the appropriate knowledge, so we can get better quality of knowledge" is the aim of research.
- V. Methodology of research includes Identification of problem, collection of data, formation of Hypothesis, testing of Hypothesis, Acceptance or rejection of Hypothesis & publication of results.
- VI. F- Feasible, I- Interesting, N- Novel, E- Ethical, R- Relevant i.e. FINER criteria for research.
- VII. Qualities of researcher.
- VIII. Types of research-

- IX. Serendipity Research- Serendipity of research is occurrence of events by Chance/Accidental & fortunate discovery. Biological events may occur due to chance of some triggering factors. Types of serendipity.
- X. Importance of research in Medical field.

11. Descriptive Studies- Dr. Prashant Patil delivered lecture and focused on following points-

- I. Descriptive study is an Observational study where Observations are made on small group of patients. Inquiry type of studies like field survey are included in this type. Can be used for both qualitative and quantitative data.
- II. Case Reporting, Case series and longitudinal studies are types of descriptive studies.
- III. Case reporting is done in case of a rare findings related to any case. Like Aplastic anemia present with Fallots Tetralogy.
- IV. Case Series is reporting or publication of a same findings in group of patients. These specific findings are reported in a case series format. E.g. Types of a different symptoms present in a Covid 19 cases.
- V. Longitudinal studies are long time consuming studies, Case Control, Cross sectional and Cohort.
- VI. Cross Sectional studies are qualitative in nature & done in rare diseases where number of cases are small. The exposure and Outcome both are measured at same time in this study. Prevalence of a Cancer in defined population can be made with this type of study. And it can be found that the Cancer of Lungs is more prevalent in Smokers.
- VII. Advantages and disadvantages of descriptive studies.
- VIII. Descriptive studies are Hypothesis generating studies.

12. Case Control and Cohort Studies- This lecture was conducted by Dr. Prashant Patil sir in continuation to above Observational studies. He explained following points-

- I. Case Control study- The group of patients identified with the disease is then compared to individuals without disease/ healthy subjects. Purpose is to explore the health outcome difference in two groups.
- II. Used to find out the risk factors of a specific disease.
- III. It is always a retrospective study where Outcome is known and causes are to be found. eg. Endophthalmitis following Ocular surgery.
- IV. Matching criteria's and Confounding factors in these studies.
- V. Cohort Study- Used for group of people who shared a common characteristics or experience within a defined time period. It is a prospective or Retrospective study. Thousands of subjects are observed. So Time consuming and expensive. To calculate the Incidence of Disease. E.g. how different level of exercise improve the health.
- VI. Two by two table, Odds ratio and Relative risk.
- VII. Advantages and disadvantages of both study types.

13. Experimental Studies- The lecture was delivered by Dr. Vaibhav Phartale. He

Highlighted the bellow key points-

- I. Types of Experimental studies. - Animal study, Human trails- Randomized Controlled Trial/ RCT, Field trail and Community trail.
- II. Types of Variable – Dependent, Independent, Extraneous and Confounding variable.
- III. Study Population and Target Population.
- IV. Inclusion and exclusion criteria, sample Size and Bias its Types- Subject, Observer and Investigators bias in RCT.
- V. To avoid bias Masking or Blinding is done. Types of blinding- Single, Double & Triple blind study.
- VI. Four phases of Clinical trial.
- VII. Filed Trails- Vaccine trials.

14. Types of Data and Data Presentation- Dr. Kiran Shinde delivered the lecture and addresses following key features about data in research-

- I. Data is collected from Observation Unit in research.
- II. Internal & External sources of data.
- III. Collection of data through; Primary sources- Direct interface with the observational unit. Can be made with questionnaires, telephonic conversation, mails etc. And secondary source of data is Published and unpublished records.
- IV. Types of data- Qualitative & quantitative.
Qualitative/ Discrete/ Frequency Continuation Data- Two types. Nominal e.g. Colors of hair; and Ordinal- Degree of illness.
Quantitative Data- Discrete and Continuous data. Discrete data is number used in Mortality, Birth rate etc. Continuous data varies both in characteristic and frequency E.g. weight of male and female patients visited in Kayachikitsa OPD on single day.
- V. Descriptive Statistics- Used for Qualitative data, Non Parametric tests like Chi square, Mann Whitney U test, Wilcoxon Sign Rank tests are used.
- VI. Types of Data Presentation- Tabular and Diagrammatic presentation is used for both Qualitative and quantitative data.
- VII. For Qualitative data presentation Tables and Graphs are used. Bar, Pie diagram, Pictogram and Map diagrams are used.
- VIII. For Quantitative data presentation – Histogram, Frequency Polygon, Frequency Curve, Ogive, Cumulative Frequency graph and scatter diagrams are used.

15. Group Activity- At the end of first day of workshop activity related to all above topics was conducted by Dr. Vaibhav Phartale and Dr. Kiran Shinde.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

- I. E.g. Alcohol drinking on daily Basis causes Obesity.
- II. Students were divided into 4 groups and Type of Study design, Dependent and Independent Variables were discussed.
- III. Each group was asked to come out with the Problem and need of that specific problem according to FINER criteria was discussed. Why this problem was selected over others was discussed.
- IV. Different types of study designs with examples was discussed among the group with its reasoning.

16. Second day of session was started after breakfast.

17. **Literature Search-** Day first topic was taken on second day due to lack of time on first day. Dr. Ankush Gunjal delivered the lecture and carried out the related activity just after finishing the lecture.

- I. Necessity of Literature Search- To find the knowledge gap. We can adopt same methodology for once research through previously done work.
- II. Academic books, Journal articles and literature available on Internet are the sources.
- III. Traditional, Systemic, Meta-analysis and Meta – synthesis are the types of literature search.
- IV. It used to write the Introduction and conclusion of research.
- V. Common errors are not organized search and referencing, Too few references, Focused on unnecessary information and outdated information citation.
- VI. DHARA, AYUSH portal and Pubmed, Google Scholar are some literature search engines available on internet.
- VII. In activity part students were instructed to search online for work done on Guduchi in Prameh w.s.r. to Diabetes Mellitus type 2.
- VIII. Bullion words “and, or & not” are used by participants.
- IX. Advance PubMed search with help of MESH term was conducted.

18. **Questionnaire Designing-** The session was conducted by Dr. Parashuram Pawar sir. He focused on following points-

- I. Questionnaire is depends on the type of study design. Usually used in Qualitative research. In RCT it can support a main document like Questionnaire to fulfill the Care Record Form.
- II. It should be formulated with the plan of study.
- III. Types of Questionnaire- 2 types. Open Ended- where respondent expresses fillings freely. No predefined answers in this type. Close ended – In this type researcher provides ‘with option form’ to participants and participants have to choose the answer from predefined answers.

- IV. Principles of Questionnaire designing.
- V. Strength and Limitation of Questionnaire designing.
- VI. Validity and Reliability of Questionnaire.
- VII. Has discussed the Questionnaire on Opinion about the Contraception methods.

19. Ethical Issues in Medical Research- Dr. Parashuram Pawar sir delivered the lecture.

- I. Definition of Ethics Committee- An ethics committee is a committee formally designed to review and approve the initiation of a clinical research study involving Human subjects and to provide continuing review of the research study.
- II. History related to formation of In Independent Ethics Committee/IEC- Nuremberg code, Belmont report, declaration of Helsinki. The IEC is formed according to the principles of Good Clinical Practices/GCP.
- III. Formation of IEC- 8-15 members.
- IV. Responsibilities of IEC- To review the clinical studies in accordance with safety and wellbeing of human trial subjects before actual start of trial.
- V. Dr.Pawar sir explained the ethical issues in medical research like- Principle of essentiality, Precaution & risk minimization, Accountability and Transparency, Vulnerable and Special group, Compensation for research related harm, remuneration for Participant, Ancillary care, Conflict of Interest, Process of Informed Consent and its Importance, Privacy and Confidentiality, Distributive Justice, Community Engagement, Post research access and Benefit sharing.

20. Evaluation of Diagnostic Test-As Dr. Manish Jain was busy in his departmental work , Dr. Ankush Gunjal sir delivered lecture and explained related topics-

- I. Screening and Diagnostic tests- Screening tests are done in a group of likelihood of presence of disease and Diagnostic tests are done on Screened patients to confirm and make a final diagnosis. Eg. Mamography is a screening test for Ca. breast and Biopsy of breast is a diagnostic histopathological test for Ca. Breast.
- II. Sensitivity of test is a probability of positive test results.
- III. Sensitivity is the ability of a test to correctly identify those with disease i.e. True positive rate; whereas test Specificity is the ability of the test to correctly identify those without disease i.e. True negative rate.
- IV. Combinations of various tests can be advocated for a diagnosis of disease.
- V. Reliability of test- When results for a test are nearly same for one sample on a single instrument then the results is reliable.
- VI. Validity of test- When results for a test on different calibrated instrument shows nearly same when compared to standard results then it's a validity of test.

21. Writing a Research Protocol- Dr. Varsharani Niphade delivered the lecture and she explained the components of a research protocol as per bellow-

- I. Definition of research Protocol- A Research Protocol is a formal written record that one prepared Before research fieldwork is undertaken.
 - II. It is a document that sates the background, objectives, rationale, design, methodology and statistical consideration of the study.
 - III. Contents of research protocol are- Title , Introduction (Research Question & Hypothesis, Rationale of study), Aim & Objectives, Literature Review, Methodology (Research Design), Data collection, Analysis and Interpretation Methods, Ethical consideration, Study Time Frame, Reference style, Bibliography, List of Abbreviation, Budget, Annexure.
 - IV. Title should be- Accurate, Specific & concise, Informative & catchy, Reflect the Hypothesis to be studied, Reflect variable, Population & study design.
 - V. Introduction- Prevalence, geographical consideration, population group & causes of the disease. Findings of other studies before done- Mentioned knowledge gap. Need of research-what has been done to overcome the problem in the past and what seems to be unanswered questions about the same research.
 - VI. Research question- Hypothesis to be tested. It must be formulated with the help of **PICOT** formula.
 - VII. Hypothesis- A hypothesis is a statement that introduce a research question and proposes an expected Result. Null and Alternate Hypothesis are the types of Hypothesis.
 - VIII. Aim is what researcher has to achieve from study and Objectives are Steps taken to fulfill the Aim. Objectives are formulated with SMART criteria.
 - IX. Study design, Population, Sampling method, sample size, data collection tools, Inclusion & Exclusion criteria, Assessment criteria's, Statistical test are considered in Methodology.
 - X. Ethical Consideration should be taken before start of study.
 - XI. Vancouver Referencing style is used in MUHS.
 - XII. Bibliography- A bibliography is a list of all of the sources used (whether referenced or not) in the process of researching your work.
 - XIII. Annexure- abbreviation, Budget and CV of researcher included in this part.
22. Inferential Statistics- Dr. Yogesh Shewale took a lecture on Inferential Statistics and enlighten following points-
- I. Types of Statistics- Descriptive and Inferential.
 - II. Pearson's correlation and Correlation Coefficient is used in descriptive statistics.
 - III. In Inferential statistics some inference of a Research are made with the help of statistical test.

- IV. For qualitative Data assessment Non Parametric tests like Chi square test, Wilcoxon sign rank test- within same group, and Mann Whitney 'U' test- in different groups are used.
 - V. For quantitative data analysis parametric test like Students 't' test are used. 'Paired t test' for paired data i.e. within same group and 'Unpaired t test' for unpaired data like in 2 different groups.
 - VI. ANOVA test is used when more than 2 group are present.
 - VII. 'Z' test is used for large sample size when data follows normal distribution.
- 23. Group Activity-** Group activity was conducted by Dr. Yogesh shewale and Dr. Varsharani Niphade.
- I. 'RCT to study the Effect of Kanchanar Guggulu in reduction of Sr. TSH level in the management of Hypothyroidism' was taken for activity.
 - II. Groups were asked to come up with Research Question, Aim, Objectives, Hypothesis, Methodology, Sample size determination, Inclusion-Exclusion criteria, assessment criteria's, and Statistical tests to be applied for same example.
 - III. Participants took part enthusiastically & discussed the above aspects very well.
- 24.** On last day of the workshop 24th June 2022, after breakfast sessions were started.
- 25. Sampling Methods and Sample Size-** Dr. Sanjay Khedekar elaborated the different concepts regarding sample size for different studies as per follows-
- I. Definition of study population and sample for research. Sample is drawn from the population.eg. All doctors of SMBT campus is population and doctors from SMBT Ayurveda hospital is sample.
 - II. Two types of sampling are Random / Probability sampling and Non Random / Non Probability sampling.
 - III. Probability sampling in which every unit in the study population has equal chance of being selected as a sample.
 - IV. Non Probability sampling in which some units of population have no chance of selection in a sample.
 - V. Simple random, Systematic, Stratified, Cluster, Multistage and Multiphase sampling are the types of Probability sampling.
 - VI. Purposive, Quota, Convenience and Snowball sampling are the types of Non Probability sampling.
 - VII. Advantages and disadvantages of these sampling techniques were discussed.
- 26. Group Activity-** Related to sampling techniques was conducted by Dr. Sanjay Khedekar and Dr. Sachin Gwalani.
- I. Groups were given different study types and asked to find the appropriate sample method for study.

SMBT Sevabhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341
Email : principal.ayurved@smbt.edu.in | smbtayurved@gmail.com | www.smbt.edu.in

- II. Simple random sampling, Systematic sampling are used for RCT. Purposive sampling when study population is very small. Cluster for Cohort etc.

27. Computer Assistance in Data Analysis Excel and EPI Info- Dr. Manish Jain delivered the lecture and gives hands on training.

- I. Data definition, types of data.
- II. Measures of Central tendency.
- III. Test of significance.
- IV. Excel and EPI software training- Open file, then table of data, go to your file, choose excel sheet, then choose test finally make an analysis of test.

28. Qualitative Research Methods- Dr. Abhijit Tambe delivered the lecture.

- I. Definition of qualitative research- It is a collection, analysis and interpretation of data by what people do and say. It is a subjective research.
- II. Comparison of Qualitative and Quantitative research.
- III. Characteristics of Qualitative Research Methods.
- IV. Types of Qualitative Research are Interview, Focus Group Discussion and participant Observation Techniques.
- V. Advantages and disadvantages of Qualitative Research Methods.
- VI. Triangulation to check hypothesis in Qualitative Research Methods.

29. Critical evaluation of Journal Article- Dr. Sanjay Khedekar took a session and conducted related activity.

- I. Hierarchy of study design.
- II. Critical evaluation of article from UGC indexed Journal on Guduchi/ Tinospora Cordifolia.
- III. What to see about Journal- publisher, Section of the Journal, ISSN number, and peer reviewed Journal, year of publication, Issue and Volume of Journal, Page No.
- IV. What to see about article- Authors, credentials of authors, current position and past experience, area of expertise.
- V. What to see in published material- Departure from author's specialty area. Title of article indicated Research Question. Look for meaningful Aim and complete Objectives. Study population, study settings. Abstract within 100-250 words, catchy, not too short or long. Introduction creates rationally for current study. Logical flowing sentences. In methodology- Target population, sample frame, sampling technique used, sample size. Then material and methods like Inclusion, exclusion criteria, statistical analysis and tests used. Results should contain appropriate tables, charts and graphs. Discussion – Interpreting and explaining results obtained. It should be meaningful, highlight the important findings of

study, enough explanation and significant thinking, logical and reasoned the results properly. At the end Limitation of study and Conflict of Interest if any.

VI. **Group activity-** was conducted with giving 2 sample articles. One is with good presentation. Participants were asked to find the Methodology used. Only the Authors area of expertise is different from the subject of article. Second was a not good one lacking in many areas like, Not fulfill the Objectives related to aim, inappropriate sample size, tests of Statistical analysis are incomplete etc.

All the lectures and group activities mentioned in schedule were completed with some rescheduling as per the availability of faculty.

30. At the end of workshop Post-test and feedback for Program evaluation was taken. All participants passed the Post-test successfully.
31. Feedback forms were submitted by google form on rmw.smbtayu@gmail.com by all the participants. Feedbacks were very encouraging. 61% of the participants found speaker's knowledge was excellent. Respectively 52% & 61% participants found presentation and contain relevance excellent. 52% participant found lectures interactive and 61% participant found overall effective.
32. Workshop certificates will be distributed by MUHS, Nashik online.

Basic Workshop in Research Methodology Programme Schedule

Venue & Organizer: **SMBT Ayurved College and Hospital,**
Nandi Hills, Dhamangaon, Tal. Igatpuri, Dist. Nashik-422403.

Number of participants: 30

DAY ONE - Date: 22.06.2022, Wednesday

S. N	Topic	Method	Time (Min.)	Speaker	Time
1	Registration, Breakfast and Pre -Test				09:00 am to 10:00 am
2	L-1: Introduction to Research Methodology	Lecture	45	Dr. VarsharaniNiphade	10:00 am to 10:45 am
3	L-2 : Study Designs-1: Descriptive studies	Lecture	45	Dr. Prashant Patil	10:45 am to 11:30 am
4	Tea		15		11:30 am to 11:45 am
5	L-3 : Study designs-2: Case Control and Cohort Studies	Lecture	45	Dr. Prashant Patil	11:45 am to 12:30 pm
6	L-4 : Study Designs-3: Experimental studies	Lecture	45	Dr. VaibhavPhartale	12:30 pm to 01:15 pm
7	Lunch		30		01:15 pm to 01:45 pm
8	Group Activity-1: Participants will be divided into 4 -5 groups. <ul style="list-style-type: none"> Each group will discuss among itself and come out with at-least 2 research questions and related hypothesis Indicate why the topic was selected by the group over other topic Indicate the type of study with reasons thereof Indicate dependent and independent variables included in the study (Tea may be served during group activity)	Group Activity	90	Dr. KiranShinde Dr. VaibhavPhartale	01:45 pm to 03:15 pm
9	L-5: Types of Data and Data Presentation	Lecture	75	Dr. KiranShinde	03:00 pm to 04:15 pm
10	L-6: Literature search	Lecture	45	Dr. AnkushGunjal	04:15 pm to 05:00 pm

Basic Workshop in Research Methodology Programme Schedule

Venue & Organizer: **SMBT Ayurved College and Hospital,**
Nandi Hills, Dhamangaon, Tal. Igatpuri, Dist. Nashik-422403.

Number of participants: 30

DAY TWO - Date: 23.06.2022, Thursday

S. N	Topic	Method	Time (Min.)	Speaker	Time
1	Breakfast & Tea				09:00 am to 09:30 am
2	Group Activity – 2: Participants will divide into groups as was done for GA-1 and GA-2. Each group will try to search references related to topics finalized and discussed in GA-1 and GA-2	Group Activity	45	Dr. Ankush Gunjal & Dr. Varsharani Niphade	09:30 am to 10:15 am
3	L-7: Sampling: Methods & Sample size	Lecture Demo	60	Dr. Sanjay Khedekar	10:15 am to 11:15 am
4	Group Activity-3: Participants will divide into groups as in GA-1. Each group will discuss and present <ul style="list-style-type: none">• Sampling method adopted for the study / studies selected in GA-1• Discuss and present sample size determined for the study• Present at least 3 dummy tables generated (Tea shall be served during group activity)	Group Activity	75	Dr. Sanjay Khedekar & Dr. Sachin Gwalani	11:15 am to 12:30 pm
5	L-8: Inferential Statistics	Lecture	60	Dr. Yogesh Shewale	12:30 pm to 01:30 pm
6	Lunch		30		01:30 pm to 02:00 pm
7	Group Activity-4: The groups will discuss about the inferential statistics (statistical tests) to be applied for the study design discussed in earlier group exercises.	Group Work	45	Dr. Yogesh Shewale & Dr. Varsharani Niphade	02:00 pm to 02:45 pm
8	L-9: Questionnaire Designing	Lecture	60	Dr. Parshuram Pawar	02:45 pm to 03:45 pm
9	Tea		15		03:45 pm to 04:00 pm
10	L-10: Writing a research protocol	Lecture	60	Dr. Varsharani Niphade	04:00 pm to 05:00 pm

**Basic Workshop in Research Methodology
Programme Schedule**

Venue & Organizer: **SMBT Ayurved College and Hospital,**
Nandi Hills, Dhamangaon, Tal. Igatpuri, Dist. Nashik-422403.

Number of participants: 30

DAY THREE - Date: 24.06.2022, Friday

S.N	Topic	Method	Time (Min)	Speaker	Time
1	Breakfast & Tea				09:00 am to 09:30 am
2	L-11: Ethical Issues In Medical Research Groups will present ethical issues in their respective studies	Lecture and Group activity	75	Dr. Parshuram Pawar	09:30 am to 10:45 am
3	Tea		15		10:45 am to 11:00 am
4	L-12: Evaluation of a diagnostic test	Lecture	60	Dr. Manish Jain	11:00 am to 12:00 pm
5	L-13: Critical Evaluation of Journal Article	Lecture	75	Dr. Sanjay Khedekar	12:00pm to 01:15 pm
6	Lunch		30		01:15 pm to 01:45 pm
7	GA-5: Two journal articles (different study designs) will be presented and discussed by members. (Tea shall be served during the group activity.)	Group activity	75	Dr. Sanjay Khedekar & Dr. Sachin Gwalani	01:45 pm to 03:00 pm
8	L-14: Qualitative research methods	Lecture	45	Dr. Abhjit Tambe	03:00 pm to 03:45 pm
9	L-15: Computer assistance in Data Analysis Excel and EPI Info.	Lecture	45	Dr. Manish Jain	03:45 pm to 04:30 pm
10	Post - Test and Valedictory				04:30 pm to 05:00pm

As Per Guidelines of IMETTT we organize **Approved Faculty Members** on each day of program:
Faculty members are as follows:

Dr. Parshuram Pawar:- (Shree Saptashruni Ayurved Mahavidyalay & Hospital, Nashik)

Dr. Abhjit Tambe:- (SMBT Institute of Dental Sciences & Research, Dhamangaon, Nashik)

Dr. Vaibhav Phartale :- (Shree Saptashruni Ayurved Mahavidyalay & Hospital, Nashik)

Dr. Kiran Shinde :- (Shree Saptashruni Ayurved Mahavidyalay & Hospital, Nashik)

SMBT Seva Bhavi Trust's

SMBT AYURVED COLLEGE AND HOSPITAL

Nandihills, Dhamangaon-Ghoti, Tal. Igatpuri, Nashik-422403 Ph. (02553) 282341

DATE: 3/01/2019

Event Report

Name of the Event :- Non teaching training - Hospital work awareness

Date and time of the event :- 8/1/19 - 2 pm to 3 pm

Location of the event :- SMBT Ayurved
Hospital Corridor 1st floor

Number of participants :-

026

Resource Person :- Dr. Vinaya Bodke (Wagh)

Summary :- This programme is conducted for the purpose of 'To make aware of the each persons (staff) duties according to their posts'. Also in this session it is told to them that - why the need of training. The training is conducted by Dr. Vinaya Bodke. Attends of trainees is attached with the report.
